DIRECTOR'S MESSAGE

Dear Students,

In this climate of great economic change & competition there is a need for a bang up to date knowledge, which is accessible even to people who normally, avoid the subject. And knowledge, which really claim to be up to date, must recognize & provide for the propound changes, which are taking place in the way. Successful people have flexible minds & recognized attitudes for what they are, adapted to conditions they obsolete when times have change they don't doggedly hold on to attitudes developed to cope with the conditions of yesterday. The grasp the nettle that we have moved on into another phase, and knew, more appropriate attitudes have to be formed or adopted attitudes are never right or wrong in absolute terms, only more or less appropriate. Increasingly, management & technological programs previously, provided by the state have acquired global importance, it requires increasing in management & technical awareness indifferent field among the population, it is not only knowledge & skills, which must be quickly learned. Attitudes too must change long standing institutional attitudes, appropriate for the candidates of the past must now be discrete faster & then they were acquired as the circumstances for which they were appropriate are disappearing over right. Consequently, this real meanings & rationale underlying the obsolete & the newly fasten emerging management values, technical updating & arrangements. It is aimed at students & business people alike. Our programs combine highly researched curriculum integrated with industry relevant concepts & practices. IMTE offers a unique blend of theoretical & culling edge inputs to students making them technically all round professionals. In knowledge & skill section it is designed to be comprehensive but user friendly as possible. So whether you work in a larger management & technical programs will set you think critically about such issued as accountability, efficiency, development & changes. We hope too, that it will help you your part-as well must-in constantly finding better ways of managing our social & business needs in the future.

Director

Institute of Management & Technical Education

Profile

INSTITUTE OF MANAGEMENT & TECHNICAL EDUCATION is a KVQA NORISK Accrediting of Norway and ISO 9001-2008 Certified Institution of higher studies. IMTE, a distance educator of management and technical is an institute having motive to groom students to understand, administer and manage the ever-changing global business dynamics. Our focus is on making sure that our student receives an education that is not just of high quality but relevant to today's industry and highly competitive global market place. Our programs combine highly researched curriculum integrated with industry relevant concept and practices. Our faculty equips students with latest industry oriented techniques in technology for better grip in the job market.

IMTE was established in the year 2000 to achieve the following objects: The institute is registered with government of U.P. and the unit of ZIYA FOUNDATION (A non-profit organization) registered Government of U.P. (Reg. No. - LUC/05044/2018-2019)

Enhance the career of students in business, Management and Technology. Democratizing industry oriented higher education by taking it to the doorsteps of the learners providing access to high quality education to all those who seek it. Online multi choice questions for better understanding of the students. Short term programs in various faculties which enable the student to acquire industry oriented and world class management and technical qualifications while working.

Offering industry based programs with specializations by giving professional, technical and vocational orientation to the course.

Promoting and developing distance and online system of education in India. Setting up and maintaining standards of education in the country. Upgrading the standard of education as per the need of the industry by adapting the new modes of interactive, innovative collaborative and user-friendly system of education.

IMTE paves a path to early success in the life through its distance and online courses. These courses consist of concept, case studies and industrial training that provide broad exposure to relevant business concept, technical skills and management specifics. This helps them to get started as "Managers"/ "Team Leaders" by enhancing their productivity, capability to formulate business policies and handling technical data, strategies and their implications for the organization.

Mission

The IMTE is committed to provide industry oriented quality education in management and technology through distance system of education across the globe. The key idea is provide flexibility in learning anytime, anywhere. The curriculum combines latest academic knowledge with international competence. At IMTE we have dedicated our intellectual resources to advancing the frontiers of business knowledge and educating future leaders. In a global, culturally diverse and technologically advanced social arena, characterized by rapid change and complex interdependencies, we aim to empower their leaders to understand and address the far reaching change as affecting the world. Science business is a powerful propellant of progress and economic development, our mission is to prepare the innovative and entrepreneurial leaders of the future with the capacity to anticipate and manage in the professional environment. The IMTE imparts most cutting edge, research driven knowledge and skills in a targeted, dynamic and productive way to suit the needs of employers in industrial and corporate sector in a shortest possible time and make a very bright future for a better life.

Vission

Vission shaping a better future for making by developing effective and socially responsible individual and organizations. Providing professional skills at shortes time, at much affordable cost to enrich career, Unique education mythology through specilly fast track programs. Value based management and technical education for due recognition. Upgrading the study materials to suit the industries

Why IMTE

IMTE paves a path to early success in life through its distance course. These courses consist of concepts, case studies and industrial training that provide broad exposure to relevant business concepts, technical skills and management specifics. This helps them to get started as “Managers”/ “Team Leaders” by enhancing their productivity, capability to formulate business policies and handling of technical data, strategies and their implication for the organization. Those who are short of time and wish to upgrade their skills, knowledge for success can choose fast track courses where they can keep themselves connected to the faculties and co-learners. They can opt for a home examination to save their time and can re-attempt thrice if chosen wrong answers. It is an enthusiastic attempt by IMTE to expose the best of international technologies and management principles, practices and managerial / team leading functions to the students as well corporate entities for which we have secured affiliate membership AIMS-ATMA (Association of Indian Management School). However, the pursuit of our technical and management programs demands intellectual maturity, strength and willingness to work hard. For those endowed with inquisitive minds, application of techniques and the drive to succeed, these programs will be a voyage of discovery leading to professionally satisfying careers. We invite all those who share our vision, goals and purpose to join hands in our efforts to build a new cadre of management and technical professionals, who wish and will participate actively in the growth of this era of economic, liberalization and globalization.

Career Opportunities

Career opportunity The IMTE programs are designed as career oriented professional and technical programs. The body of knowledge, curriculum design, education methodology, examination and evaluation process, all have thrust on improving and evaluating the skills of the students to enable them to build successful careers. The IMTE programs attempt to blend Indian International content and make our programs educative and professionally rewarding. We are regularly upgrading our course contents to meet the daunting challenge of the millennium. Our students cultivate human traits and values and organizational loyalty and this goes a long way in making a niche for themselves in the fiercely competitive corporate world. IMTE is a competent authority (self financing) itself to impart certification based on their (student/s) experience to meet the educational standard of the course/s as laid down by the institute to which a student wishing/ wished for admission. Our certification is an added benefit for the working class/failures in securing better prospects/promotions and is not valid for governmental jobs/higher studies.
